welcome note

We are pleased to present you with the program for the 2007 Sydney Underground Film Festival which includes amazing films, filmmakers, live performances and side events. In the non-competitive program we will be screening some significant and highly innovative filmmakers from around the world including Albie Thoms, David Perry and Paul Winkler (UBU Films), Bill Morrison, David Lynch, Abigail Child, Martha Colburn, David Firth, Dirk De Bruyn, Virgil Widrich. We also have an amazing competitive program lined up for you of some independent and experimental gems including Ivan Kavanagh's Lynchian feature, Tin Can Man, Gil Kofman's remarkable first feature, The Memory Thief, and the eye-opening documentary, Gulf War Syndrome: Killing Our Own, by seasoned documentarian, Gary Null.

We look forward to changing an engrained culture of cinematic complacency and mediocrity and nurture a culture of resistance surrounding film. The festival team want to reignite the fervor and feisty attitudes of the filmmakers from the 1960s and '70s using film as a political medium to show varied alternative films that are unconventional, provocative, and original.

We would like to thank all the festival organisers, volunteers, sponsors, and audience for taking a chance on a festival that works hard to encourage the creation of alternative films, and provides a platform for their exhibition, exposure, and distribution.

The festival team includes: Stefan Popescu, Katherine Berger, Elizabeth Berger, Samantha Findley, Siouxzi Connor, Pamelah Otto, Michelle Berger and Rachael Brown.

aims of the festival

Sydney and Australia are in need of greater dialectic when it comes to underground and experimental cinema. Finally, with great support, we have been able to put the wheels into motion for a new festival that can help to nurture a stronger alternative film culture here.

The festival upholds its promises to support filmmakers who operate outside established film industry infrastructures through providing a platform for viewing and discussing alternative cinema. Films must break boundaries and transgress the status quo in a unique way to be suitable to screen. We want to encourage more political filmmaking, in both subject matter and in form, process and structure.

The Sydney Underground Film Festival will be a hub for networking, not a hub for industry politics and is built for everyone interested in alternate films, to bring together people from diversified artistic fields and backgrounds to watch and discuss alternative film.

It is our hope that passion for underground cinema will result from our festival: four nights of subversive, experimental visual and aural pleasure held at The Factory Theatre. (There will also be educational & entertaining lectures and side events before and after the festival).

THE FACTORY THEATRE IS THE PRIMARY VENUE FOR THE 2007 FESTIVAL WHICH TAKES PLACE FROM 7TH-10TH SEPT 2007

honouring UBU

The 2007 Sydney Underground Film Festival will be joined this year by some of the pioneering UBU Filmmakers including Albie Thoms, Paul Winkler, John Clark and David Perry, who first used the term 'Sydney Underground' in Australia in the 1960's.

If young experimental filmmakers today think they have it tough, try forming the first ever group in Australia dedicated to making, exhibiting and distributing experimental films. The UBU Films group, which was founded by Albie Thoms, Aggy Read, David Perry and John Clarke operated from 1965-1970, and later became the Sydney Filmmaker's Co-operative, producing some of Australia's most important experimental works. The group was named after Alfred Jarry's play Ubu Roi, a precursor to the Absurdist, Dada and Surrealist movements. The group staged multi-media 'happenings', expanded and independent cinema productions, with themes that subverted the status-quo.

The aims of SUFF are all too familiar to the goals of UBU Films 40 years ago. As Albie Thoms recalls: "We were sick of all the talk about the Australian film situation and had begun helping ourselves, financing our small movies and helping each other make them...we decided to screen our films ourselves."

The UBU filmmakers helped forge the careers of the likes of Peter Weir, Phillip Noyce, and Bruce Beresford.

The 2007 Sydney Underground Film Festival will be premiering Paul Winkler's playful commentary on pop culture, Pop Kitsch (Paul still only uses only in-camera effects!) and David Perry's new digital collage film, Dingbats!

TIN CAN MAN

AUSTRALIAN PREMIERE

IRELAND / 2006 / 83 mins / dir. IVAN KAVANAGH

Recently dumped by his girlfriend for another man, working in a job he hates, things could be better for Peter. One night, while he is alone in his apartment, there is a knock at the door. His life will never be the same again.

What begins as a soap-opera narrative on the petty woes of the modern man's working life, Tin Can Man unfurls with frightening rapidity as night falls until you are left fumbling, weeping in a Lynchian carnivale of depravity.

This surrealist merry-go-round is tempered with the character dynamics of Haneke, and the cinematography of Aronofsky.

We are proud to present upcoming Irish Filmmaker, Ivan Kavanagh and his new feature film on opening night!

THE MEMORY THIEF

CLOSING NIGHT FEATURE : 8.30-10pm

USA / 2007 / 93 mins / dir. Gil Kofman

THE MEMORY THIEF is the story of Lukas - an aimless, young man in contemporary L.A. who buries thoughts of his own past in the humdrum routine of a tollbooth clerk. A chance encounter with a Holocaust survivor suddenly brings into focus a world and an identity he embraces with frightening intensity - the victimized Jews of World War II. As he begins to enthusiastically act out his newfound obsession, Lukas discovers that survivor's guilt isn't just for the Jews anymore.

THE MEMORY THIEF is a mesmerizing, audacious psychological thriller in the tradition of TAXI DRIVER. The film was edited by Curtiss Clayton who cut To Die For, Drugstore Cowboy, Buffalo 66. It stars Mark Webber (The Hottest State, Broken Flowers) and Rachel Miner (Bully). THE MEMORY THIEF is a small, modest film in terms of production, that could have great lasting impact with its audience. It is both unique and provoking and is as relevant as ever to us in this time of senseless war.

We are proud to present Gil Kofman and his remarkable first feature film on closing night!

SUFF LECTURE SERIES

Tuesday 11th - Friday 14th September at Sydney College of the Arts

THURSDAY 13 SEPT : 1-2 PM

'DOWN & DIRTY II' Contemporary Underground Documentary: An Update.

In May 2002 film critic, filmmaker and curator Megan Spencer (triple j, SBS Movie Show, Lovestruck) gave a lecture about transgressive and underground documentary as part of the Real Life on Film documentary film festival. 'Down & Dirty: The Power & Poetry Of Transgressive Documentary' generated controversy and passionate debate about the role of documentary in bringing transgressive and taboo subjects to audiences via the 'underground' documentary context. Fresh from her role as Guest Artistic Director for Revelation Perth International Film Festival 2007, Spencer will rework the talk for the inaugural 2007 Sydney Underground Film Festival. Updating it to the 2007 underground filmmaking context, she will cite a broad range of references including Jisoe, A Dollar for The Good Ones, Zoo, Naked On The Inside, Loose Change, the work of Tony Comstock and others. She will explore the role of transgression in documentary, its definitions, and will also ask whether the term 'underground' can still be applied to documentary in the age of digital distribution.

FRIDAY 14 SEPT : 1-2 PM

JACK SARGEANT : An academic examination of hardcore pornography.

Jack Sargeant is author of numerous books on underground film and culture, including Deathtripping: the Cinema of Transgression, Naked Lens: Beat Cinema, Cinema Contra Cinema and Suture.
